3		resident 1	tetap	5645376457	belum menikah	
4		resident 2	kontrak	5645376457	sudah menikah	

Tampilan awal resident menu akan seperti ini, kita bisa menambahkan resident, edit dan hapus resident.

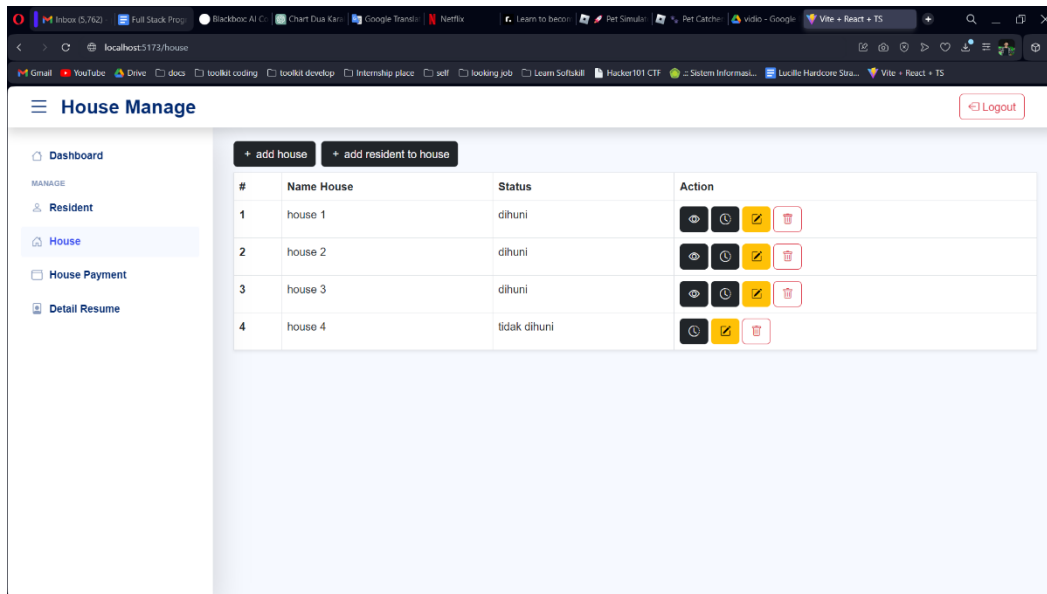

Untuk menambahkan resident kita wajib untuk memasukan foto ktp.

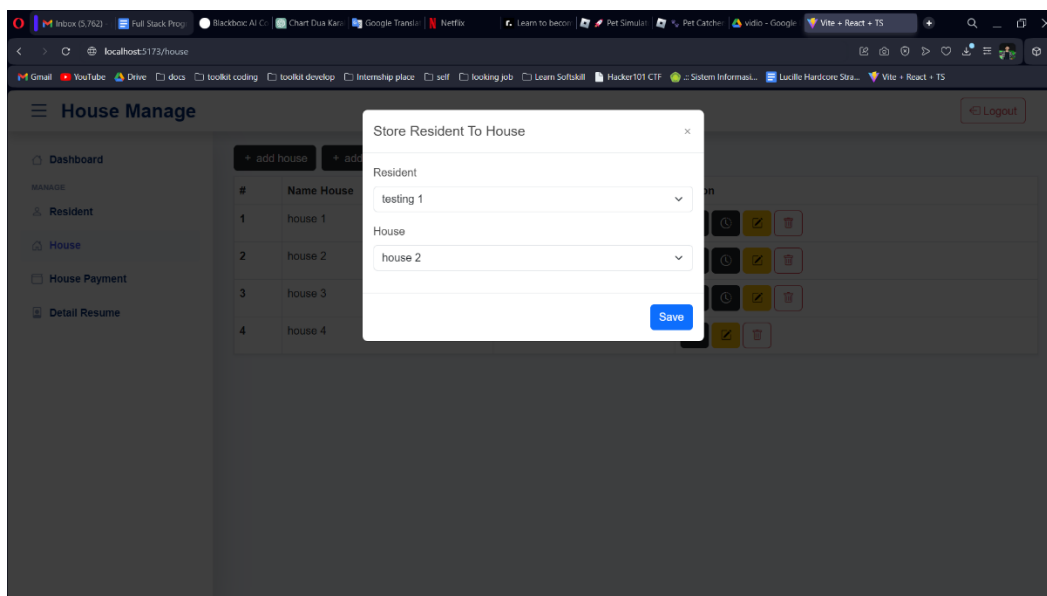

Sementara edit itu optional, kita bisa memasukan foto ktp jika kita ingin mengubah fotonya.

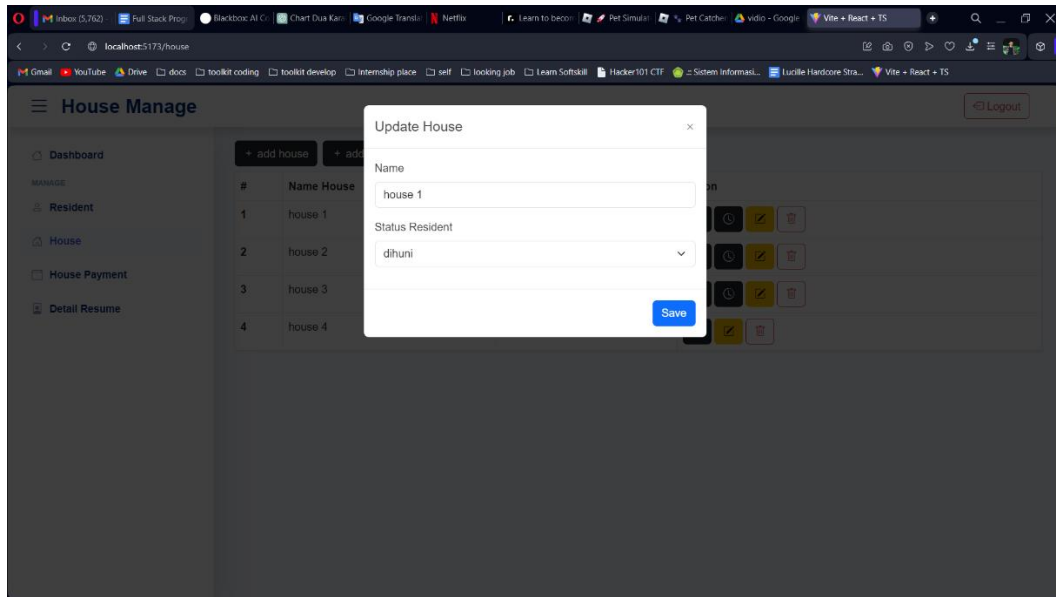

### 3. House

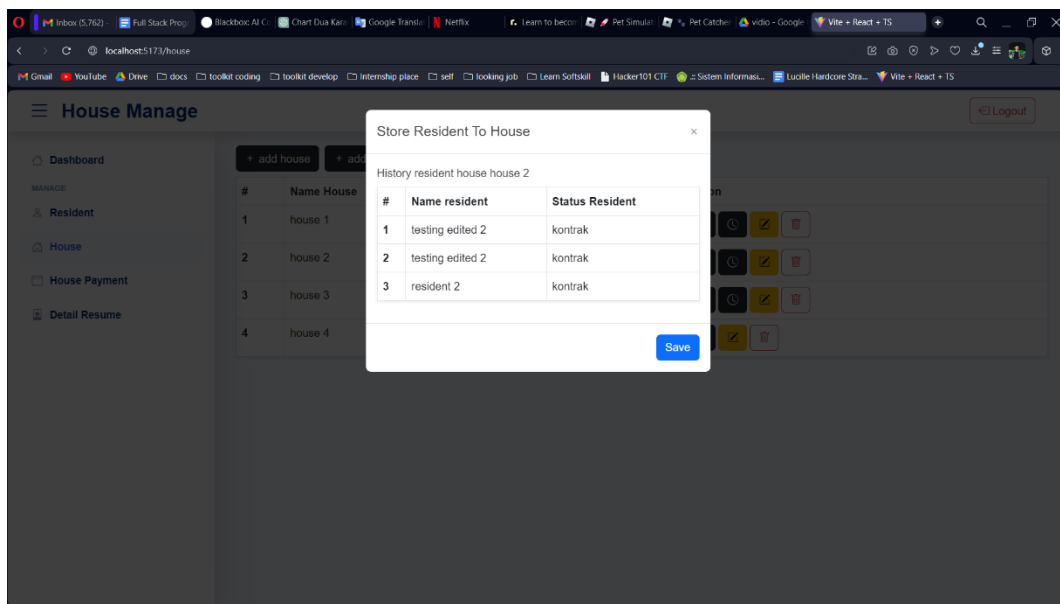

Pada menu ini kita bisa menambahkan rumah, menambahkan penghuni (resident) kedalam rumah, melihat penghuni rumah, melihat history penghuni rumah, mengedit rumah dan menghapus rumah.

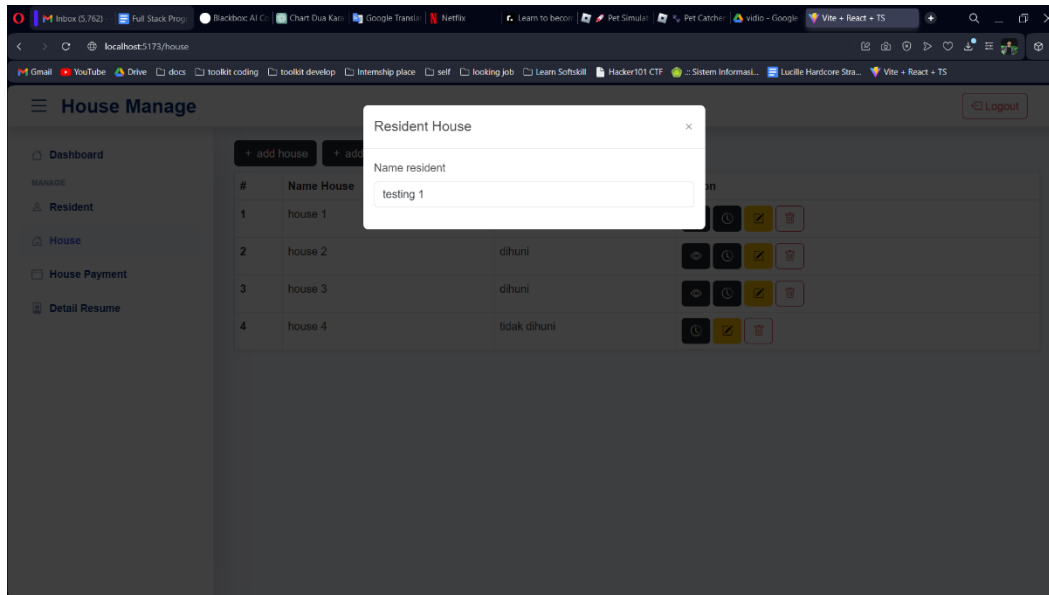

Ini adalah form untuk memasukan resident / penghuni ke rumah

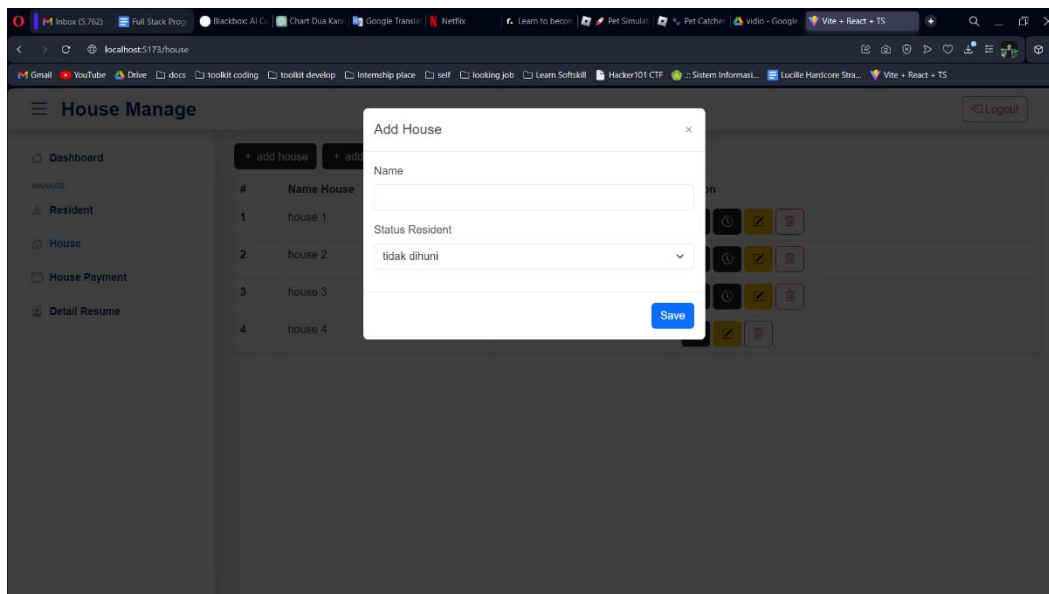

Form ini digunakan untuk mengupdate rumah

Disini kita bisa melihat history penghuni rumah

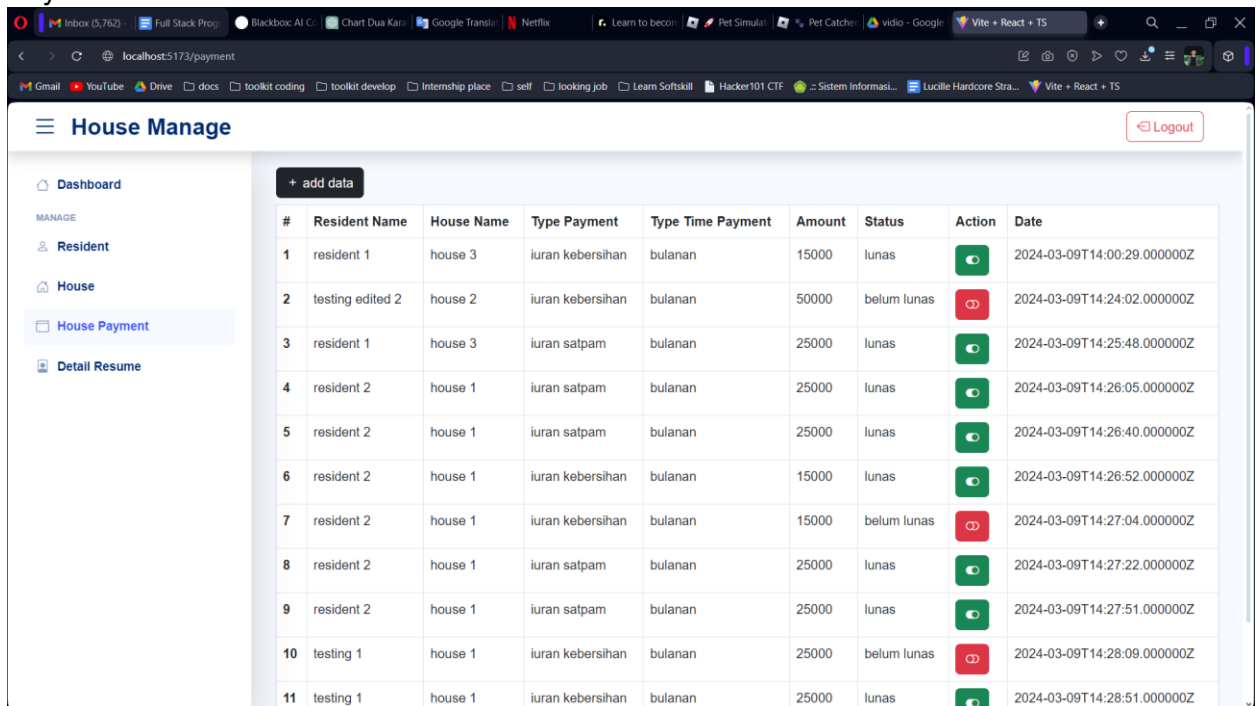

Jika rumah memiliki status dihuni maka akan muncul tombol untuk melihat penghuni rumah

Dan ini adalah form untuk menambahkan rumah baru

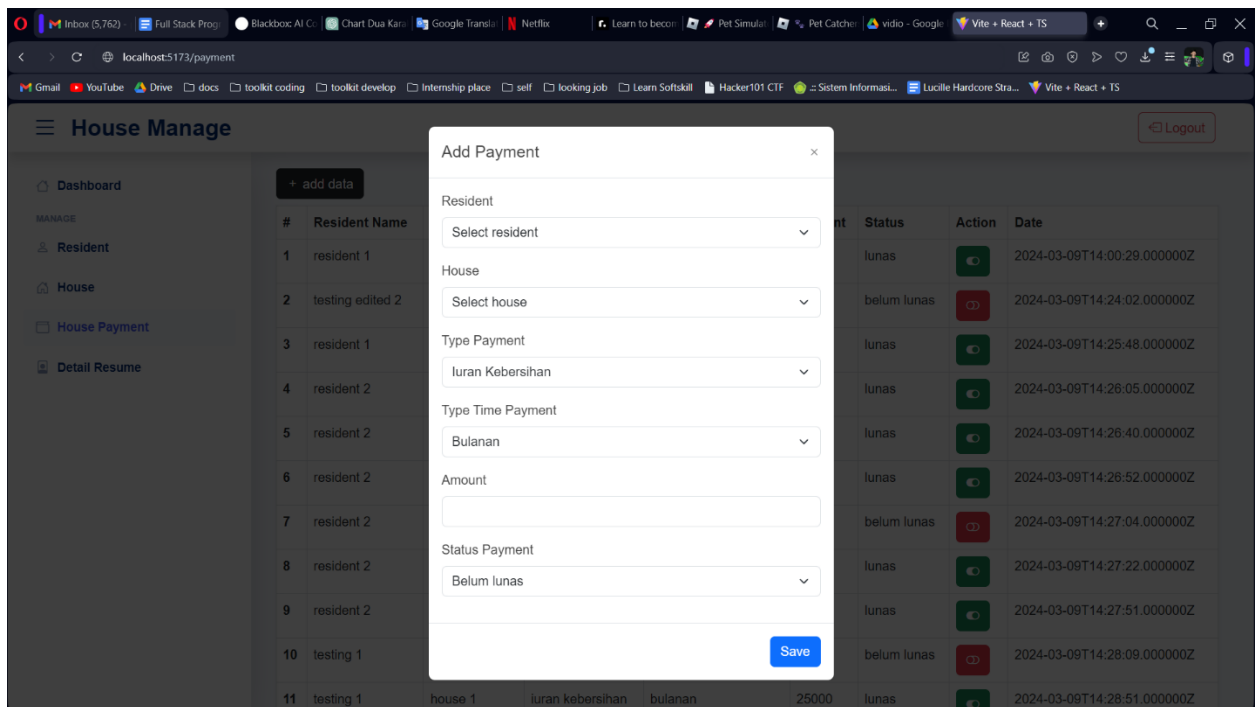

#### 4. Payment

The screenshot shows a web application titled "House Manage" with a sidebar menu containing "Dashboard", "Resident", "House", "House Payment", and "Detail Resume". The "House Payment" section is active, displaying a table with 11 rows of payment data. Each row includes a resident name, house name, payment type, frequency, amount, status, an action button, and a timestamp. The status column shows "lunas" (paid) or "belum lunas" (not paid), and the action buttons are green for "lunas" and red for "belum lunas".
